Professional Summary

Self-motivated and detail-oriented MERN Stack Developer with hands-on experience building responsive full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in designing clean UIs with Tailwind CSS and managing state with Redux and Context API. Strong grasp of REST APIs, JWT authentication, and real-time communication with Socket.IO. Adept at writing clean, maintainable code and collaborating via Git. Passionate about building scalable and secure web solutions.

Technical Skills

Frontend: React.js, Redux Toolkit, Context API, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, DaisyUI, Bootstrap
Backend: Node.js, Express.js, REST API, JWT Auth, bcrypt, Multer, Cloudinary
Database: MongoDB, Mongoose
Tools: Git, GitHub, Postman, Vite, npm, VS Code
Other: dotenv, Axios, Responsive Design, Canva

Projects

Matrimony Web App - MERN Project
- Shaadi.com-style platform with user authentication, admin dashboard, and real-time chat.
- Implemented JWT authentication, Cloudinary for uploads, and Socket.IO for messaging.
- Role-based access with shortlisting and reporting features.
- Admin panel for monitoring messages and managing users.

Bookstore Web App - MERN Project (Ongoing)
- Bookstore platform with user authentication and personalized dashboard.
- Allows users to browse books, read online, and enroll in video-based courses.
- Currently implementing secure APIs, responsive UI, and dashboard features.
